ABOUT ME

Born in Milan, 1980, I started drawing and I haven't stopped yet! I've always been able to draw everything thanks to restless observation, skills learned through studies and a bit of talent. Drawing and painting became my job and since some years I'm more than happy to also teach them at Scuola Internazionale Comics.

I've been working for communication and fashion as well as editorial illustration. Published worldwide, among the other prizes I've been selected for Bologna Children's Book fair (2002), Premio Illustri (2019), Autori d'Immagini (2020,21,22), 3x3MAG (2023) Illustration Annuals.
